**RUST IS CANCER THAT SPREADS THROUGHOUT**

It is extensively present on my 2006 Toyota Tacoma VIN # 3TMJU62NX6M011310 frame.

The rust has made its way past the frame and to other components of my truck.

I have included with my objection pictures of these other areas of rust.

I have contacted my Local Toyota Dealership and Toyota Motor Corp on numerous Occasions, regarding my concerns and complaints but received no efforts or solutions on their part.

I have spent a lot of time and money prolonging the effects of the rust on my truck.

**Description:** The subject vehicles' rear suspension system contains leaf springs that are constructed of either three or four leaves. There is a possibility that a leaf could fracture due to stress and corrosion. If this occurs and the vehicle continues to be operated, the broken leaf could move out of position and contact surrounding components, including the fuel tank.

If the broken leaf contacts the fuel tank repeatedly, it could puncture the tank and cause a fuel leak. In the presence of an ignition source, this could result in a fire.

**Remedy:** Toyota is currently preparing the remedy for this condition.

### **CARFAX Price Adjustment™**

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### **Manufacturer Recall**

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### **New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

### **Toyota Recall**

Toyota Motor Sales, USA, Inc. provides CARFAX with recall information within the last 10 model years for vehicles originally marketed or sold in the United States of America and its territories. Only open Safety or Emissions recalls, where the remedy has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall activity for any Toyota vehicle, go to <http://toyota.com/recall>.
